

ABSTRACT

Online Examination is an Internet based questionnaire. The questions can be categorized according to sector, occupation. The Exam is compiled with questions from specific topic. Exams are created on a sequential basis per candidate with a particular time limit during which they are to be answered.

Online examination helps candidate and its mission is to offer a quick and easy way to appear for the exam. It also provides the results immediately after the exam. The candidate can enter to the exam only with their valid username and password. This examination contains multiple choice questions and appropriate number of options. There are limitations on number of options. Only one option can be correct and the candidate can select only one option. This provides time limit. The candidate can see their results after completing the exam. In the other hand it gives much beneficial features in the aspect of exam prepare .It helps the exam prepares to create the exam from far distance and which can provide security and simplicity. For administrator and sector administrator the system gives advantageous features.
